

Welcome to the NGN Pin Audit

Thanks for your purchase!

This is your **step-by-step self-audit** to identify what's working, what's broken, and exactly what to fix to grow your Pinterest traffic and revenue.

Start your audit here 

[Click to open the audit form](https://form.typeform.com/to/OLd39pBG)

If the link doesn't open automatically, copy this: <https://form.typeform.com/to/OLd39pBG>

How It Works:

1. **Complete the audit form:** It takes about 10–15 minutes and will guide you through every key area of your Pinterest setup.
2. **Your audit result:** You'll instantly get your personalized score + a detailed roadmap with all the action steps.
3. **Implement the steps:** Each fix is paired with a clear, step-by-step SOP you can either implement it yourself or hand it off to a VA.
4. **Repeat anytime:** You can re-run this audit as often as you like - to track your progress, re-check your setup, or use it for additional sites/accounts.

Our Best Tips for Getting the Most Out of It:

- **Block 1–2 hours** to go through the results and implement the top priorities.
- **Don't try to fix everything at once:** Start with the highest-leverage tasks first (we'll show you which ones).
- Re-audit every 4–6 weeks to **stay on track and monitor your growth**.
