

Pinclicks* is, in our experience, the best Pinterest keyword research tool.

We use it for almost all of our KW & interest research to:

- a) Find easy-to-rank KWs, annotations & interests
- b) Assess our chances of successfully targeting those KWs

It has been incredibly helpful in achieving strong results like this, and I highly recommend checking it out.

We've also managed to secure an exclusive discount code for you: [nichegrownerd](#)

How to Use the Discount Code:

- Simply apply it when selecting a plan and entering your details.
- It works on all plans.
- The 25% discount is especially valuable for annual plans since you already get a 28% discount for paying annually. With the discount code, you save over **46% in total**.
